

OPEN TO NEW OPPORTUNITIES

Guillermo *Cañete*

**OPERATIONAL EXCELLENCE & PROCESS ENGINEERING | AI-ENHANCED
MANUFACTURING SYSTEMS**

Professional in **Operational Excellence & Process Engineering** with over 14 years identifying what others accepted as inevitable and turning it into measurable results. Proven experience in high-demand electronics manufacturing for **Motorola, Samsung, Huawei, Sony, and Alcatel**. Certified Auditor for **ISO 9001 · 14001 · 45001**. Designs processes, implements continuous improvement, and builds proprietary digital tools applying AI. Available for national and international relocation.

01

About me

I don't manage quality from a distant desk — I design it from within. With 14+ years at **Grupo BGH** delivering products for global brands, I built my career on a simple premise: **isolate the root cause, resolve permanently, and track key metrics to optimize.**

I fuse traditional manufacturing excellence (**APQP, PFMEA, CAPA, Core Tools**) with modern AI tools to expedite analysis diagnostics and build smarter operational flows.

I plan and execute integrated audits, ensure strict regulatory compliance with global clients, and design optimized production flows.

ISO 9001 / 14001 / 45001	AUDITOR
APQP · PFMEA · CAPA	CORE
Root Cause Analysis	DAILY USE
Line Balancing · VSM	PROVEN
IA Aplicada a Calidad	DIFFERENTIATOR

02 Results that matter

+17%

Increased production 17% on the Alcatel 4007 model through assembly-line rebalancing and ergonomic workstation optimization — without adding headcount.

+10%

Exceeded planned production by 10% for the Alcatel 4015 model through tactical process-flow optimization.

-3 op

Participated in reducing 3 operator positions on the Samsung microwave line, rebalancing workstations to lower manufacturing costs.

-2d

Cut onboarding by 2 days by designing a cross-shift training model for new product launches.

Designed and implemented CAPA programs that eliminated recurrence of critical defects across multiple electronic manufacturing lines.

Delivered quality compliance for Motorola, Huawei, Samsung, Sony and Alcatel, managing cross-functional teams.

03 Proven career path

May 2025 - Present · Full-time · On-site

Grupo BGH

Quality Management & Continuous Improvement Lead

As part of the Quality Management team, I am responsible for driving continuous improvement through data-driven decision-making and root cause analysis. My main responsibilities include:

- Conducting detailed **DATA ANALYSIS** to identify key quality trends and issues.
- Performing **FAILURE ANALYSIS** to uncover root causes and prevent recurrence.
- Designing and implementing **CORRECTIVE AND PREVENTIVE ACTIONS (CAPA)**.
- Leading the **VERIFICATION AND VALIDATION** of implemented solutions to ensure their effectiveness.
- Collaborating with cross-functional teams to improve processes and manufacturing reliability.

CONTINUOUS IMPROVEMENT

October 2022 - Present (Part-time / parallel function)

Grupo BGH

Lead Integrated ISO Auditor (9001 / 14001 / 45001)

Conducting integrated audits according to the annual audit plan, verifying system compliance in parallel with my core quality role. Key responsibilities include:

- Ensuring **CONFORMITY WITH CUSTOMER REQUIREMENTS** and expectations under **ISO 9001**.
 - Evaluating **ENVIRONMENTAL MANAGEMENT** and strict regulatory compliance under **ISO 14001**.
 - Auditing **OCCUPATIONAL HEALTH AND SAFETY** conditions and risk prevention under **ISO 45001**.
 - Performing **NON-CONFORMITY IDENTIFICATION** and drafting detailed audit reports.
-

August 2019 - February 2024

Grupo BGH

Senior Process Engineer

Design and optimization of manufacturing processes for appliance lines, controlling critical operational documentation. Key responsibilities:

- Designing the full **PROCESS FLOW** and performing production **LINE BALANCING**.
 - Providing **TECHNICAL TRAINING** to operational staff on manufacturing standards.
 - Conducting **PROCESS FAILURE ANALYSIS** and ergonomic workstation optimization.
 - Developing **MAINTENANCE DOCUMENTATION** with complex work instructions for annual critical equipment maintenance.
-

February 2017 - August 2019

Grupo BGH

Metrology & Engineering Laboratory Specialist

Calibration of critical measurement equipment for electronics manufacturing, ensuring the highest standards of metrological traceability. Key responsibilities:

- Executing calibrations under the guidelines and principles of the **ISO 17025** standard.
 - Ensuring **METROLOGICAL TRACEABILITY** for critical plant equipment.
 - Calibrating high-complexity instrumentation, including **RADIO FREQUENCY (RF) GENERATORS** and **GPS SIGNAL GENERATORS**.
 - Calibrating and recording standard measurement devices like **HI-POT TESTERS**, scales, and multimeters.
-

March 2014 - February 2017

Grupo BGH

Process Engineer — Mobile Business Unit (Global Brands)

Design of mobile phone manufacturing processes for top-tier global brands such as Motorola, Huawei, ZTE, Alcatel, and Sony. Manufacturing in this unit ceased in February 2017 due to the closure of the mobile business unit. Key responsibilities:

- Applying **QUALITY PLANNING (APQP)** methodologies and **CORE TOOLS** (FMEA, Control Plan).
- Performing assembly **LINE BALANCING** to achieve required production and quality targets.
- Lowering **MANUFACTURING COSTS** through methodological improvements in assembly processes.
- Drafting complex **WORK INSTRUCTIONS** and providing daily technical support on the plant floor.

+17% PRODUCTIVITY (ALCATEL) • MOTOROLA • SONY • HUAWAI • ZTE

May 2012 - February 2014

Grupo BGH

NPI Quality Analyst (New Product Introduction)

Quality assurance during New Product Introduction (NPI) and industrial manufacturing launch phases. Key responsibilities:

- Auditing launch activities to verify compliance with **ISO 9001** and **ISO/TS 16949** standards.
 - Developing **CONTROL PLANS** and inspection instructions for new components.
 - Participating actively in the development of **DESIGN AND PROCESS FMEAs**.
 - Performing **TECHNICAL TRANSLATION** (English to Spanish) of corporate specifications.
 - Drafting **LAUNCH TECHNICAL REPORTS** for management and global clients.
-

04 Built, not just managed

Implementation of AI-powered web applications and associated databases to solve specific industrial problems. I design and deploy custom digital quality solutions. Interact with the sandbox components below:

PROTOTYPE SANDBOX // PCB DEFECT RECORDER

LIVE SIMULATOR

WEB APP · QUALITY TOOL · 2025

PCB Defect Recorder

Register defects directly on the product image. Real-time data, heat map, automatic statistics.

- Register failures on product image
- Automatic statistics & heat map
- Reduces operator data-entry time
- 100% local — no external servers

TRY THE LIVE APP ↗

PROTOTYPE SANDBOX // ISO ANALYZER (WIP)

COMPLIANCE TRACKER

WEB APP · AI TOOL · IN DEVELOPMENT

ISO Compliance Analyzer

Upload your documentation and AI analyzes which ISO clauses are covered, which are missing, and what's redundant.

- Automatic detection of covered ISO clauses
- Gap identification and potential non-conformities
- Document redundancy analysis
- ISO 9001 · 14001 · 45001
