KEY ACHIEVEMENTS & METRICS

- Increased production 17% on the Alcatel 4007 model through assembly-line rebalancing and ergonomic workstation optimization — without adding headcount.
- Exceeded planned production by 10% for the Alcatel 4015 model through tactical process-flow optimization.
- Participated in reducing 3 operator positions on the Samsung microwave line, rebalancing workstations to lower manufacturing costs.
- Cut onboarding by 2 days by designing a cross-shift training model for new product launches.
- Designed and implemented CAPA programs that eliminated recurrence of critical defects across multiple electronic manufacturing lines.
- Delivered quality compliance for Motorola, Huawei, Samsung, Sony and Alcatel, managing cross-functional teams.
