

PROFESSIONAL PROFILE

Professional in Operational Excellence & Process Engineering with over 14 years in complex and high-reliability manufacturing (Motorola, Samsung, Huawei, Sony, Alcatel). Certified Auditor for ISO 9001 · 14001 · 45001. I manage quality by building active bridges between Quality, Engineering, and Production to solve problems holistically, always prioritizing process stability and metrological rigor. I streamline communication in cross-functional teams to prevent catastrophic failures, lower costs, and ensure world-class standards. I build proprietary digital tools leveraging AI and am open to relocation. While my foundation is built on ISO 9001 and ISO 17025 standards across complex consumer electronics and RF calibration, my approach to Root Cause Analysis and strict metrological traceability aligns seamlessly with the rigorous Zero-Defect culture required by AS9100 and IPC-A-610 standards in the aerospace and high-reliability sectors.

CORE COMPETENCIES

ISO 9001 / 14001 / 45001
APQP · PFMEA · CAPA
Root Cause Analysis
Line Balancing · VSM
AI Applied to Quality
English — Advanced

KEY ACHIEVEMENTS & METRICS

- Increased production 17% on the Alcatel 4007 model through assembly-line rebalancing and ergonomic workstation optimization, while simultaneously exceeding established quality objectives (First Pass Yield).
- Exceeded planned production by 10% for the Alcatel 4015 model through tactical process-flow optimization, maintaining strict process stability and zero catastrophic defects.
- Participated in reducing 3 operator positions on the Samsung microwave line through rebalancing, lowering costs without compromising the product's strict reliability standards.
- Cut onboarding by 2 days by designing a cross-shift training model for new product launches.
- Designed and implemented CAPA programs that eliminated recurrence of critical defects across multiple electronic manufacturing lines.
- Delivered quality compliance for Motorola, Huawei, Samsung, Sony and Alcatel, managing cross-functional teams.

PROFESSIONAL EXPERIENCE

Quality Management & Continuous Improvement

Grupo BGH

- Leading deep **FAILURE ANALYSIS** to uncover root causes and ensure a zero-defect mindset.
- Designing and implementing closed-loop **CORRECTIVE AND PREVENTIVE ACTIONS (CAPA)**.
- Managing control and **TRACEABILITY** of critical components throughout the production flow.
- Leading the **VERIFICATION AND VALIDATION** of implemented solutions, ensuring risk mitigation.
- Collaborating cross-functionally to robust processes and guarantee high-reliability manufacturing.

Integrated ISO Auditor (9001 / 14001 / 45001)

Grupo BGH

- Ensuring **CONFORMITY WITH CUSTOMER REQUIREMENTS** and expectations under **ISO 9001**.
- Evaluating **ENVIRONMENTAL MANAGEMENT** and strict regulatory compliance under **ISO 14001**.
- Auditing **OCCUPATIONAL HEALTH AND SAFETY** conditions and risk prevention under **ISO 45001**.
- Performing **NON-CONFORMITY IDENTIFICATION** and drafting detailed audit reports.

May 2025 – Present · Full-time · On-site

October 2022 – Present (Part-time / parallel function)

Senior Process Engineer

August 2019 – February 2024

Grupo BGH

- Designing the full **PROCESS FLOW** and applying **STATISTICAL CONTROL** to maximize repeatability.
- Providing **TECHNICAL TRAINING** to staff on critical manufacturing standards.
- Conducting **PROCESS FAILURE ANALYSIS** with a focus on preventing catastrophic failures.
- Developing strict **ENGINEERING DOCUMENTATION** and work instructions for annual maintenance.

Metrology & Engineering Laboratory Specialist

February 2017 – August 2019

Grupo BGH

- Executing high-precision calibrations under the strict principles of the **ISO 17025** standard.
- Ensuring uninterrupted **METROLOGICAL TRACEABILITY** for critical test equipment.
- Calibrating complex instrumentation such as **RADIO FREQUENCY (RF) GENERATORS** and **GPS SYSTEMS**.
- Certifying functional safety test devices (e.g., **HI-POT TESTERS**), guaranteeing zero tolerance for deviations.

Process Engineer — Mobile Business Unit (Global Brands)

March 2014 – February 2017

Grupo BGH

- Applying **QUALITY PLANNING (APQP)** methodologies and **CORE TOOLS** (FMEA, Control Plan).
- Performing assembly **LINE BALANCING** to achieve required production and quality targets.
- Lowering **MANUFACTURING COSTS** through methodological improvements in assembly processes.
- Drafting complex **WORK INSTRUCTIONS** and providing daily technical support on the plant floor.

NPI Quality Analyst (New Product Introduction)

May 2012 – February 2014

Grupo BGH

- Auditing launch activities to verify compliance with **ISO 9001** and **ISO/TS 16949** standards.
- Developing **CONTROL PLANS** and inspection instructions for new components.
- Participating actively in the development of **DESIGN AND PROCESS FMEAs**.
- Performing **TECHNICAL TRANSLATION** (English to Spanish) of corporate specifications.
- Drafting **LAUNCH TECHNICAL REPORTS** for management and global clients.
