

PROFESSIONAL PROFILE

Professional in Operational Excellence with 14+ years driving Lean transformation, quality management, and continuous improvement in complex, high-reliability manufacturing (Motorola, Samsung, Huawei, Sony, Alcatel). Certified Auditor for ISO 9001 · 14001 · 45001, with hands-on application of Lean tools — Value Stream Mapping, line balancing, standard work — to raise throughput and First Pass Yield simultaneously. I act as a bridge between Quality, Engineering, and Production, facilitating improvement workshops and training frontline teams to embed continuous improvement as a daily practice, not a one-off project. I lead root-cause analysis and closed-loop CAPA programs with strict metrological traceability, define and track KPIs across production flow, and build proprietary AI-assisted tools to accelerate quality decision-making. Open to relocation and international assignments.

KEY ACHIEVEMENTS & METRICS

- Increased production 17% on the Alcatel 4007 model through assembly-line rebalancing and ergonomic workstation optimization, while simultaneously exceeding established quality objectives (First Pass Yield).
- Exceeded planned production by 10% for the Alcatel 4015 model through tactical process-flow optimization, maintaining strict process stability and zero catastrophic defects.
- Optimized labor efficiency by reallocating 3 operator roles on the Samsung microwave line through Lean rebalancing, lowering costs without compromising reliability.
- Cut new-hire onboarding by 2 days by designing a peer-to-peer cross-shift training program: experienced operators coached new staff 1-on-1 until required skill level and quality standards were met, accelerating the learning curve during new product launches.
- Designed and implemented CAPA programs that eliminated recurrence of critical defects across multiple electronic manufacturing lines.
- Delivered quality compliance for Motorola, Huawei, Samsung, Sony and Alcatel, managing cross-functional teams.

PROFESSIONAL EXPERIENCE

Quality Management & Continuous Improvement

May 2025 – Present · Full-time · On-site

Grupo BGH

- Leading deep **FAILURE ANALYSIS** to uncover root causes and ensure a zero-defect mindset.
- Designing and implementing closed-loop **CORRECTIVE AND PREVENTIVE ACTIONS (CAPA)**.
- Managing control and **TRACEABILITY** of critical components throughout the production flow.
- Leading the **VERIFICATION AND VALIDATION** of implemented solutions, ensuring risk mitigation.
- Coordinating with **INTERNATIONAL SUPPLIERS** (Asia) for non-conformity resolution and quality requirements compliance.
- Collaborating cross-functionally to strengthen processes and guarantee high-reliability manufacturing.

Integrated ISO Auditor (9001 / 14001 / 45001)

October 2022 – Present (Part-time / parallel function)

Grupo BGH

- Ensuring **CONFORMITY WITH CUSTOMER REQUIREMENTS** and expectations under **ISO 9001**.
- Evaluating **ENVIRONMENTAL MANAGEMENT** and strict regulatory compliance under **ISO 14001**.
- Auditing **OCCUPATIONAL HEALTH AND SAFETY** conditions and risk prevention under **ISO 45001**.
- Performing **NON-CONFORMITY IDENTIFICATION** and drafting detailed audit reports for management stakeholders.

Senior Process Engineer

August 2019 – February 2024

Grupo BGH

- Designing the full **PROCESS FLOW** and applying **STATISTICAL PROCESS CONTROL (SPC)** to maximize repeatability.
- Facilitating **TECHNICAL TRAINING WORKSHOPS** for staff on critical manufacturing and Lean standards.
- Conducting **PROCESS FAILURE ANALYSIS** with a focus on preventing catastrophic failures.
- Developing strict **ENGINEERING DOCUMENTATION** and work instructions for annual maintenance.

Metrology & Engineering Laboratory Specialist

February 2017 – August 2019

Grupo BGH

- Executing high-precision calibrations under the strict principles of the **ISO 17025** standard.
- Ensuring uninterrupted **METROLOGICAL TRACEABILITY** for critical test equipment.
- Calibrating complex instrumentation such as **RADIO FREQUENCY (RF) GENERATORS** and **GPS SYSTEMS**.
- Certifying functional safety test devices (e.g., **HI-POT TESTERS**), guaranteeing zero tolerance for deviations.

Process Engineer — Mobile Business Unit (Global Brands)

March 2014 – February 2017

Grupo BGH

- Applying **QUALITY PLANNING (APQP)** methodologies and **CORE TOOLS** (FMEA, Control Plan).
- Performing assembly **LINE BALANCING** to achieve required production and quality targets.
- Coordinating with **INTERNATIONAL SUPPLIERS** (China) on quality standards compliance and component non-conformity resolution.
- Lowering **MANUFACTURING COSTS** through methodological improvements in assembly processes.
- Drafting complex **WORK INSTRUCTIONS** and providing daily technical support on the plant floor. ⚡ **Key achievements:**
- **+17%** production increase on the Alcatel 4007 model through line rebalancing and ergonomic optimization, while exceeding First Pass Yield targets.
- **+10%** above planned production on the Alcatel 4015 model, maintaining zero catastrophic defects.
- **-2 days** onboarding reduction through a peer-to-peer 1-on-1 cross-shift training program.
- **-3 operators** reallocated on the Samsung microwave line through Lean rebalancing, lowering costs without compromising reliability.

NPI Quality Analyst (New Product Introduction)

May 2012 – February 2014

Grupo BGH

- Auditing launch activities to verify compliance with **ISO 9001** and **ISO/TS 16949** standards.
- Developing **CONTROL PLANS** and inspection instructions for new components.
- Participating actively in the development of **DESIGN AND PROCESS FMEAs**.
- Coordinating with **INTERNATIONAL SUPPLIERS** (China) on incoming component quality requirements compliance.
- Performing **TECHNICAL TRANSLATION** (English to Spanish) of corporate specifications.
- Drafting **LAUNCH TECHNICAL REPORTS** for management and global clients.
